

Concerned about our future? You should be. Here are the facts:

Israel's Security

Senator Barack Obama has been a consistent and strong friend to Israel in both the Illinois and U.S. Senates, evidenced by the 100% rating of his record by the American Israel Public Affairs Committee (AIPAC).

Health Care for All Americans

Senator Obama's health plan provides affordable, accessible health care for all Americans, strengthens employer coverage, makes insurance companies accountable and ensures patient choice of doctor and care without government interference. This will save a typical family up to \$2500 annually.

Iran's Threat

"There is no greater threat to Israel or to the peace and stability of the region...and I intend to eliminate that threat."
Senator Obama speech to AIPAC June 4, 2008

Economy

Senator Obama will invest in America's infrastructure, education, and R&D. He will bring jobs back home and jump-start our struggling economy.

Energy Independence

Barack Obama will eliminate our current oil imports from the Middle East within 10 years and create 5 million new green-collar jobs in the alternative energy sector.

Stem Cell Cures

Senator Obama believes we should explore the potential of stem cells to find cures that might treat the millions of people suffering from debilitating and life-threatening diseases.

Supreme Court Nominations

"With one more vacancy on the Supreme Court, we could be looking at a majority hostile to a woman's fundamental right to choose...The next president may be asked to nominate that Supreme Court justice. That is what is at stake in this election"
Barack Obama on the 35th anniversary of the Roe v. Wade decision

Protecting Aging Americans

"We...have an obligation to protect Social Security and ensure that it's a safety net the American people can count on today, tomorrow and forever."
www.barackobama.com

Ending the War in Iraq

Senator Obama opposed the war in Iraq that is costing U.S. taxpayers billions of dollars. He wants Iraq to use its estimated \$79 billion surplus to fund its own reconstruction.

"It's time for fundamental change in Washington. To make that change, we need to draw on a spirit that is deeply embedded in the Jewish tradition – a view that says we all have a responsibility to do our part to repair this world; that we can take care of one another and build strong communities grounded in faith and family; that repairing the world is a task that each of us takes up every day. That is how we are going to meet the challenges we face."

– Barack Obama, April 16, 2008
